Which Savings Account is Best for You?

You sold your old car, had a nice tax refund, or received a gift and now you want to save that money. Which account is best for you?

The Credit Union offers many Savings Accounts that yield higher interest rates than most banks and financial institutions, and all your accounts can be viewed through Online Banking. Figuring out the right type of account is easy once you decide on what you want to use the money towards.

- **Share Savings Account.** This general savings account can be linked to your Checking Account to allow for transfers between accounts. Access the money in your Share Savings Account with a credit union ATM Card.
- **Individual Retirement Accounts (IRAs).** Whether you're saving for a first home purchase (Roth IRA), higher education purposes (Education IRA), or for retirement (Traditional IRA), the Credit Union has an IRA for you. As with Share Certificate, the Credit Union offers rates and terms to suit your needs.
- **Share Certificates (CDs).** These high-interest yielding accounts come with various rates and terms. When you're looking to save for the future or towards a short-term goal, check out the Credit Union's rates and terms.
- **Money Market Accounts.** Money Market Accounts tend to yield high interest also but offer more flexibility and liquidity than Share Certificates.

Your friendly Credit Union Member Representative is available to help you figure out which account is best for you or to help you open up an account. Give us a call or stop by today and begin saving toward your dreams.
